Special thanks to the gamefaqs & coh communities for the bulk of the <34 level data & to epinephrine at coh for figuring out the formula for lieuts and bosses versus minions.

Note: Debt XP in minions.... you have to kill TWICE this number of minions to stop paying debt.

REGARDING INFLUENCE: for enemies YOUR level, you get 70% of the XP value for minions, 120% for lieutenants, and 200% for bosses. -thanks to airionis/TopDoc for confirming this calculation.

REGARDING ENEMY HP: over level 10, lieuts have 2x the HP of minions, bosses have 3x the HP of minions, growing to 4x at about level 25. -thanks to airionis/TopDoc for this info.

Where figures are uncertain or merely estimated, a "~" will be in front of the data.
